What aspects does NameScore check?

NameScore examines several aspects of your name – from classic trademark research and marketing chances in the online world, all the way to phoneme evaluation based on the sounds that make up the name. NameScore's checks cover legal*, marketing-oriented and aesthetic aspects.

1

Trademark search

Is your name or a similar name already protected as a trademark?

2

Domain Availability

Which top-level domains are available?

3

Search engine / AppStore availability

Is your name already frequently found in popular search engines and AppStores?

4

Social media availability

In which social networks is your name already used?

5

Hidden potentials and stumbling blocks

Does your name contain (foreign-language) terms?

6

Sound

What are the sound characteristics of your name? Is it a hard or a soft name? What feelings does it evoke?

Your NameScore

This is how your name was scored.

Someone knows what's up here!

The name has a pretty good NameScore. It has scored positively for many of the checks. That's already a great result. However, please take a look at the individual ratings to see if any of the areas where it has scored less highly is relevant to you. If that's not the case, you've probably got a great name on your hands!

The higher the NameScore for your name, the more suitable the name is for successful marketing. Find out now the total score as an important indicator for the quality of your name. The other checks that assess the style, sound, and structure of your name are also particularly exciting and helpful.

Name Checks

Find out how well your name is suited for business use and how good its marketing opportunities are. NameScore has thoroughly evaluated your name to this end.

Sound Impact Check

The Sound Impact check validates the proposed name for a variety of sound qualities and gives an overview of associations that the name can trigger by the way it sounds. These checks should be understood as a subjective assessment of the name, created by an artificial intelligence. As such, they should not be taken as an objective truth. However, they do give an assessment of how the name sounds, and that assessment is useful for guidance purposes.

Pitch of voice

This check pertains to the vowel quality and reveals how low or high the name sounds overall.
